

NEWBORN INSERT for G5 Infant Car Seat

The Newborn Insert is an under-upholstery foam wedge insert designed to help newborns and small infants fit securely into the harness. As each child's body is different, proper fit is critical to ensure the safety of your child.

4 - 11 lbs.

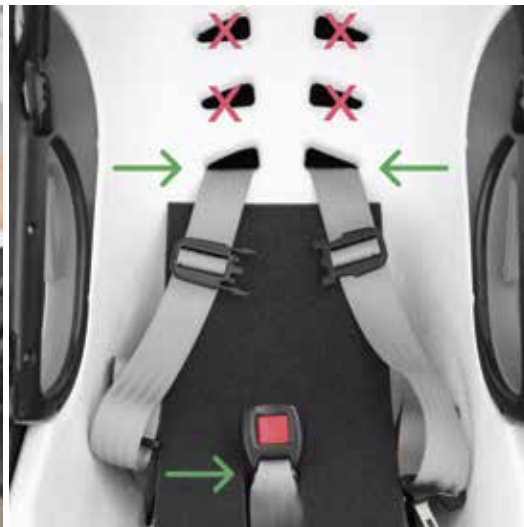

12+ lbs.

1

Remove the interior liner, including the head support and crotch pad from the shell of the seat.

2

Position the foam insert into the bottom of the car seat as shown. The insert should align with the contour of the seat and sit just below the lowest harness slots. The crotch buckle should match and slot into the center of the insert.

3

Replace the interior liner back onto the seat with the foam insert now positioned between the shell of car seat and the liner.
